DESCRIPTION : RE- SURFACING OF THE MINE ACCESS ROAD

DATE OF ISSUE : 08 DECEMBER 2018

SITE INSPECTION DATE : 13 DECEMBER 2017 AT 09:00AM

SUBMISSION CLOSING DATE : 19 DECEMBER 2017 AT 02:00 PM

PLACE : MANUNGU COLLIERY OFFICES

Scope of work

Scope 1: Cape seal or Asphalt layer (2.5 km x 7.8m)

- 30mm asphalt overlay continuously graded 80/100 (quoted per square meters)
- Certain portions to have base repairs i.e. C4 stabilisation or about 3% to 3.28% cement stabilisation of base repairs backfilled with suitable material, with square patches of asphalt (quoted per ton)
- Minimum compaction of 95% of modified AASHTO maximum density on road bed repairs
- 60% cationic spray grade emulsion (quoted per liter)
- 70/100 penetration grade bitumen (quoted per liter) or 80/100 penetration grade bitumen
- Road markings especially the centre line and at intersections (quoted per meter length)
- Rubble strips at Stop Signs (quoted per meter)
- Caution signs at the culverts, should be high intensity grade retro-reflective background, character, symbols, legend and borders (quoted per square metre or per item)
- Very important to keep the vertical alignment at the bell mouth within SANRAL tolerances
Scope 2: Double Layer Chip and Spray (2.5 km x 7.8m)

- 19mm&9.5mm double seal the smaller aggregate fills these voids & results in the interlocking of the aggregate (quoted per square meters)
- Certain portions to have base repairs i.e. C4 stabilisation or about 3.28% cement stabilisation of base repairs backfilled with suitable material, with square patches of asphalt (quoted per ton)
- Minimum compaction of 95% of modified AASHTO maximum density on road bed repairs
- 60% cationic spray grade emulsion (quoted per liter)
- 70/100 penetration grade bitchumen (quoted per liter) or 80/100 penetration grade bitchumen
- Road markings especially the centre line and at intersections (quoted per meter length)
- Rubble strips at Stop Signs (quoted per meter)
- Caution signs at the culverts, should be high intensity grade retro-reflective background, character, symbols, legend and borders (quoted per square metre or per item)
