

# All the love that Mavungwani gives

**Mavungwani kick-started their December of 2022 by hosting a Wellness Day in partnership with Mbuyelo Mining Contractors (Pty) Ltd (also known as “MMC”). This mine’s mothering acts go beyond ticking boxes, as it nurtures not only its own, but also communities near and affected by the mine.**

Wellness institutions from all walks of life were invited to visit the mine offering their services to do health checks and to inform and create awareness about the wide range of issues workers need to be on the lookout for. The invite extended not only to Mavungwani employees, but to all its contracting companies too.

Mavungwani was doing the most with their well thought-out itinerary which covered health checks by Clinic Plus, SANBS, Legacy Ambulance Services and Kwazamokuhle Clinic. Financial wellness was guided by well-established institutions such as Liberty, Sanlam, ABSA and Old Mutual. SANCA handled what they do best, alcohol and substance abuse issues. Then finally, the mine hosted Employee Assistance Practitioner Services to its team members. Our very own Tshwarelo Mosito opened the programme and introduced the speakers, but what would be an event without a blessing? Mr Monde Nembula did the honours before a very informative session with all the invitees. Thereafter, Mr Vilakazi thanked all for their support, making such an important event a success.

**mothering acts that go beyond ticking boxes**

On the 2nd of December 2022, Mavungwani Colliery hosted a Long Service Awards dinner at the Rustique Boutique Hotel in Middelburg. Whether it was five or ten year celebrations, it was heart-warming to see award beneficiaries filled with gratitude and so proud of themselves. Their loyalty and dedication did not go unseen as Mavungwani attests to taking pride of their own during their

greatest achievements. This indeed highlights our values of Mbuyelo being a home away from home.

When it comes to the community, Mavungwani does not make half measures. On the 23rd of December 2022, the mine donated food hampers to 20 families they had identified within the local communities. The request from a local organisation was more than enough to have them jump at the opportunity to lend a helping hand. The donation was welcomed with open arms and Christmas was as it should be, wholesome and full of cheers for them too.
