

## Manungu's still in the game

December 2022 was nothing short of a success for Manungu Colliery. With a bunch of donations, achievements, and community development programs, Manungu has proven to be a star.

Firstly, Manungu donated a total of 358 food parcels to families around the Delmas farm communities and surrounding areas. Out of the 358 parcels, 100 went to the Kutumela Orphanage in Botleg.

The Colliery understands that a healthy mind and body go hand in hand. Donations towards netball and soccer tournaments added much-needed excitement in the community as Manungu became the official sponsor of the Annual Netball and Soccer Tournament which takes place at the Swartklip Sports Field. The donations ranged from netball and soccer kits for three teams each, medals, and trophies for the tournament itself were all welcomed gifts from the mine.

The third of February 2023 were the Victor Khanye Matric Excellence Awards for the Matric Class of 2022. Again, this gentle giant stepped in to make this event a success by sponsoring laptops and tablets for the best performing students and educators. A true example of "hard work pays off" for the recipients.
