

Mr Thula Nem bula

Community Development Practitioner, recently completed his Bachelor of Commerce (Honours) Degree in Human Resource Management

Ms Pretty Mabena

Management Assistant, recently completed her Certificate of Competence in Fundamental Human Resource Practices

Mr Sifiso Chilwane

Mine Engineer, recently completed a programme in Maintenance Management

Just when you think Mbuyelo has done all it can for its people, think again. The **“Mind my Money Programme”** continues to be a great help to all Maboko staff. The mine introduced the Debt Management Program for its employees. The purpose of this program is to develop financial wellness coaching, and it has made an immensely positive impact on all employees’ livelihoods. The company has been achieving a successful output which has resulted in high productivity, improvement in staff morale and a huge dip in the absenteeism rate. There is a video on this project on YouTube under the URL <https://youtu.be/NcbrbefSSK1>

Maboko is honestly doing all it can to give back. It is not all about making money and using the people it passes along the way. On the road to success, they pick up others also deserving of freedom, unchaining them from the shackles of poverty and strife. We are exceptionally proud of you Maboko!

Xivono Mining introduced itself to neighbouring communities.

The community came in numbers when Xivono introduced itself that sunny day. They had no qualms at all as they welcomed the mine presented to them. It seems it’s a win-win situation as many locals anticipate recruitment and procurement opportunities.
